

## To the M.R.A.I. family

I welcome you all to this centre/club/website and it's so good to see you using and supporting this site. Without your support this club would be greatly diminished in sustainability and possibility.

I'm very happy to inform that most of the M.R.A.I. board has returned with only a few changes and openings. Deric D has chosen to move up to VP-Operations and we are all anticipating great things from his diverse experiences in life, here's wishing him the best in his new responsibility for our centre. Lisa J has chosen to step aside from the basketball director's position and move on to other fields of life. The M.R.A.I. extends its best wishes in her new role in her community. Lisa was one of many long lasting board chairs that lay the bricks to our slogan, memories that will last a life time. She will be greatly missed on our board, but I'm happy to say that she has made many memories for all ages on the basketball courts, association board and the M.R.A.I. board that will last a life time. We thank you and so does your community.

Due to today's lifestyles and technology it's forcing us to come up with new ways to keep the community clubs existence still viable. The M.R.A.I. is all about active lifestyles, this approach is community driven; we try and represent its diversities and uniqueness, as a jigsaw puzzle pieces are different or unique, so is the Maples community. When we deal with each piece individually it's confusing and daunting. But when these pieces come together and we begin to see the whole picture, we see that we have very similar values that make this the great place it is today. We also value that our diversity and uniqueness when bonded together makes for great strength and possibilities, as we've proven in the past years with new lighting at the club and arena, new track and field, tennis-basketball court and other projects that are in the works that need your help.

I challenge you to make a difference and help this centre into this new age of technology and changing life styles. We need YOU to take part in YOUR centre and pick up where others have left off, strengthen what's already started. I know you've heard this before but its true, its up to you to see the next generation has a community that's viable, sustainable and has greater possibilities, a place where making memories that will last a life time means something!

Be Blessed  
Maples Recreation Association Inc.
